

Cool Cube™ 28 at Refrigerator Temps (Vaccine & Medicine)

Model: VT-28

The Cool Cube™ 28 at Refrigerator Temperatures for Vaccine & Medicine is not an ordinary transport cooler. It is a lockable, wheeled, qualified container and pack-out system that keeps temperature sensitive product (fresh vaccine, medicine) chilled between 2 and 8 °C for over 4 days – without using ice or electricity! This cooler is ideal for transport, but also excels at protecting valuable product during off-site use and power outages, regardless of hot or freezing conditions. The simplified, validated, patented technology is the best compact thermal protection product available to maintain the cold chain!

Qualified Pack-Out System
