

PCM Panel Labeling Change

Creating a better customer experience with clearer information, needing less translation, and specifics about product support.

OLD LABEL

Part/Lot ⇒ Serialized (bottom right)
"Series 4" ⇒ Refrigerator (PCM)
"Series 20M" ⇒ Lab Freezer (PCM)
"Series 22" ⇒ Room Temp (PCM)

NEW LABEL

OLD

6X6 ⇒ Size **03**
6.5X6.5 ⇒ Size **08s**
11x6.5 ⇒ Size **08L**
12x12 ⇒ Size **28**
18x18 ⇒ Size **96**

NEW

Outer Case/Bag Change

Removal of the “ID Cards” (implemented in 2016). New PCM panel labeling clearly identifies the internal target temperature.

Previous versions had “color cards” helping the user identify the type of PCM panel being used and the target temperature. With the advancement of the new label, color cards are no longer needed.
